

As a consumer it is not right for me to pay for TV and Music channels that I do not want and often times block out at my TV monitor. I should be able to purchase only the channels that I want to view. It is not fair that I have to support the high cost of bringing less viewed channels to the few that want to watch them. I also live in Alaska and all the providers that I can access send me Spanish channels, I have no need for Spanish anything.
